# Problem to be Solved

Long-Form note taking tools are complicated

Writing a small note takes too long

Large app/download sizes

Forced Organization

# Approach

- Create an app to store text, image, audio, and bookmarks
- Simple user interface with only a few buttons
  - Little potential for error or misunderstanding
- Familiar, Quick interactions
- One-Tap bookmarking
- Easy to search

# What is ThrowNote?

- Short-form note taking (256 characters, 1 attachment)
- Useful for
  - Quick reminders
  - Archiving information
  - Bookmarks
  - Quick reference
  - Daily journal

# Demo

# Acknowledgments

- Dr. Pargas
  - Guiding project & providing feedback
- Sean Southard & Greg Edison
  - Feedback on code and functionality
- Wikipedia article on REST APIs
